Dear Fred,

I just wanted to take a minute to tell you how happy we are to have had the opportunity to do business with your company. The air conditioning you installed back in May is really efficient like you said it was and we especially love the quite. The lower electric bills are also very nice to see. I didn't tell you this at the time but I had already talked to four other AC companies about replacing my old unit and your company's estimate came in lower than the rest but with a better efficiency rating. From now on I won't even bother with the others!

Sincerely yours,

Charles & Jo Ann Mahan
